Why most Founders fail to Launch a Delivery App

- ▶ **Freelancers disappear** halfway through.
- ▶ **Timeline overruns** kill momentum.
- ▶ Custom development = **\$30k-\$100k+** and months lost.
- ▶ SaaS platforms = **High Fees (15% in commission), No Ownership.**

Why Choose Enatega

Full Ownership - No Monthly Fees

One-time payment gives you lifetime access to the full backend, apps, and admin tools.

Unlimited Scalability

Add unlimited stores, riders, and zones — grow without hidden costs or platform limitations.

Real-Time Insights & Error Reporting

Track performance with built-in analytics and Sentry for technical issue monitoring.

All-in-One Delivery System

Includes customer app (mobile + web), rider app, vendor/store dashboard, staff roles, and a powerful admin panel.

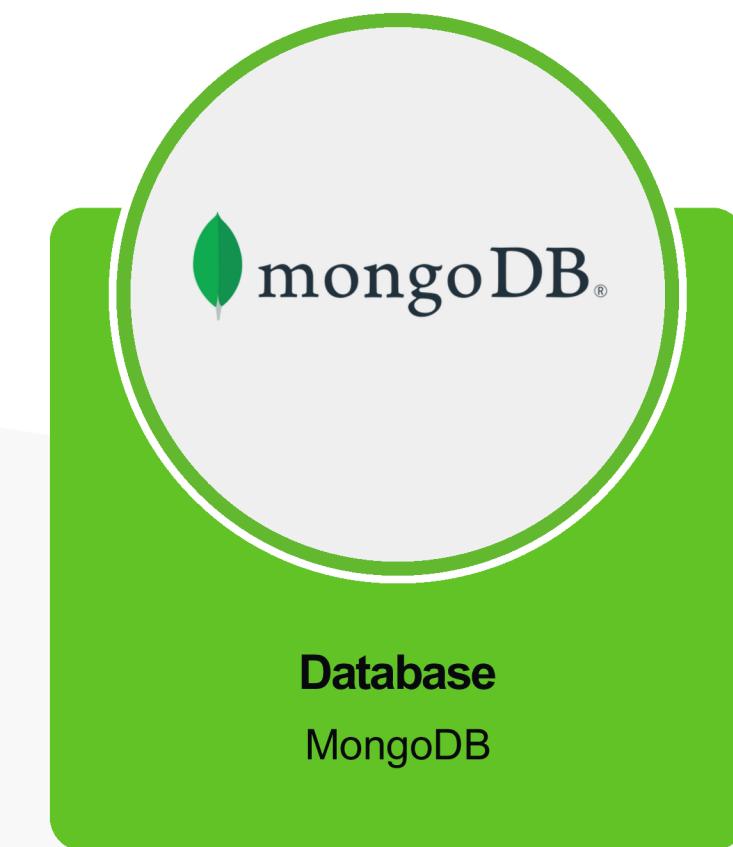

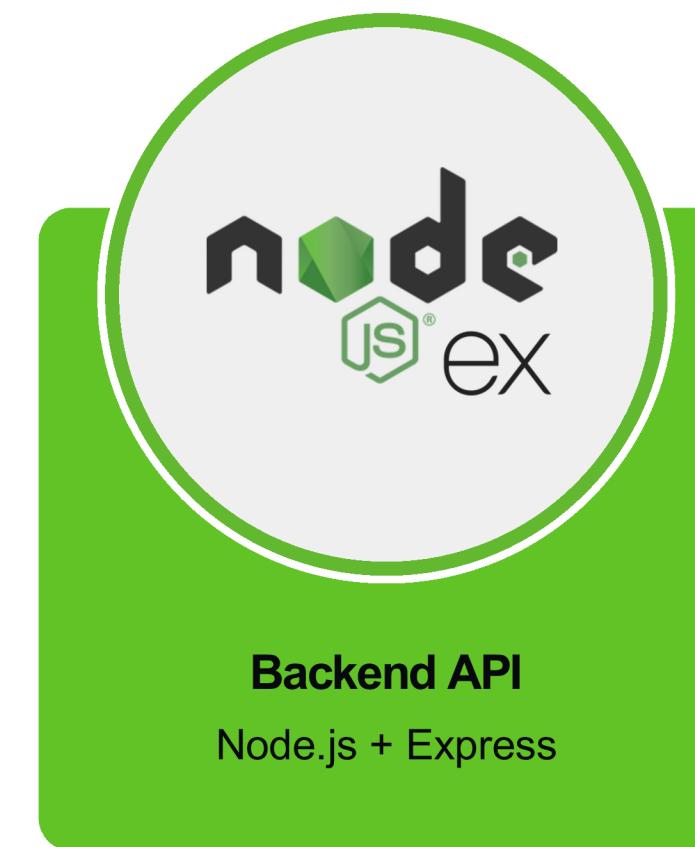

Total Business Control

Customize delivery fees, set commissions per store, and manage every operational detail from a single dashboard.

Easy Customization and Launch

Built with a modular tech stack (Node.js, React) and complete documentation — customize and launch in under 2 weeks.
