Enatega Multivendor Delivery System – Sales & Payment Options

1. Overview

Enatega offers a complete, robust multivendor delivery system with three primary plans designed to suit the needs of startups, growing organizations, and enterprises. Flexible pricing and payment options—including full upfront payments and installment plans—allow for selection of the best fit according to regional, budget, and business requirements. Additionally, any plan can be enhanced with optional add-ons such as the NinjasCode Development Package or a Deployment-Only Package, subject to specific upfront deposit requirements

2. Product Offerings

A. Base Plan – Budget-Friendly Delivery System

Price Range: $1,000 – $4,000 (One-time payment)

Includes:

- **Classic Enatega UI:** A proven, stable, and fully functional interface across Customer, Rider, Store, Admin, and Web apps.

- Complete source code delivery with no recurring fees or hidden charges.

- Full control for deployment, rebranding, modification, and customization.

Payment Options:

- **If the final Base Plan price is less than $1,500:** Full upfront payment is required.

- **If the final Base Plan price is $1,500 or more (up to $4,000):**

○ Installment plans are available.

○ **Note:** For installment customers, the server will be deployed and backend access provided **only after all installments are fully cleared.**

Optional Add-ons:

- **Base Plan + NinjasCode Package:**

  ○ Enhance the Base Plan with NinjasCode Development Services.

  ○ **Upfront Requirement:** 50% of the NinjasCode package cost must be paid upfront.

- **Base Plan + Deployment-Only Package:**

  ○ Professional rebranding and system deployment services.

  ○ **Upfront Requirement:** 50% of the Deployment-Only Package cost must be paid upfront.

B. Premium Plan – Feature-Rich Delivery Suite

Price Range: $4,000 – $15,000 (One-time payment or Installments)

Includes:

- Everything from the Base Plan, plus:

  ○ A modern, beautifully designed UI.

  ○ A feature-rich system built with the latest technology stack.

  ○ All core applications: Admin, Rider, Restaurant, and Customer apps.

  ○ Lifetime access to future updates.

  ○ Open-source app repositories.

  ○ Comprehensive public documentation and developer tutorials.

○ A free 2-hour technical consultation with Enatega developers.

Payment Options:

● Can be paid in full or via an installment plan.

● Installments may be structured over a period of up to one year.

○ **Extra Fee:** If the installment period exceeds one year, a 10% fee is applied for each additional year.

Optional Add-ons:

● **Premium Plan + NinjasCode Package:**

○ NinjasCode package selected as an add-on requires a 50% upfront deposit.

● **Premium Plan + Deployment-Only Package:**

○ Similarly, if this option is selected, 50% of the Deployment-Only Package cost is required upfront.

C. Enterprise Plan – Tailored for You

Pricing:

● **Enterprise Plan = Premium Plan price + NinjasCode Development Services ($5,000)**

● Payment can be made in full or via installments.

Includes:

● All features of the Premium Plan.

● Custom deployment and advanced feature integration/modifications.

● Server setup at the start of the installment plan.

- Priority support and personalized consultation from our experts.

NinjasCode Development Services:

- **Package Value:** $5,000, which includes 160 hours of development time.

- **Usage:** Hours can be applied toward server deployment, custom features, rebranding, or ongoing technical support.

- **Upfront Requirement:** 50% of the NinjasCode package cost (i.e., $2,500) must be paid upfront.

- **Code Handover:** For installment plans, the complete system code is handed over only after all installment payments are cleared.

Optional Add-ons:

- In addition to NinjasCode, clients may also choose the Deployment-Only Package under similar upfront deposit conditions (50% payment required).

---

3. Payment Structure & General Guidelines

- **Installment Flexibility:**

  - All installment plans are structured over a period of up to one year.

  - **Extended Installments:** If the payment period extends beyond one year, an extra fee of 10% per additional year is applied.

- **Backend Access Policy:**

  - For any plan purchased on installments (Base, Premium, or Enterprise), full server deployment and backend access are provided only after the total installment amount is paid in full.

- **Upfront Deposits for Add-ons:**

  - For both the NinjasCode Package and the Deployment-Only Package (whether paired with Base or Premium Plans), a 50% upfront deposit is mandatory before

any add-on services are initiated.

- **Custom Pricing:**

  - ○ The sales team has the flexibility to adjust the final pricing within the stipulated ranges based on the client's region, business size, and specific needs.

---

4. Summary of Plan Options

- **Base Plan:**

  - ○ **<$1,500:** Full upfront payment required.

  - ○ **$1,500–$4,000:** Installment payment available; server and backend access granted after full payment.

  - ○ **Add-ons:** NinjasCode and Deployment-Only options available (50% upfront deposit required).

- **Premium Plan:**

  - ○ **Price Range:** $4,000 – $15,000.

  - ○ **Payment Options:** Full upfront or installment (up to one year, with 10% extra fee per additional year).

  - ○ **Add-ons:** NinjasCode and Deployment-Only options available (50% upfront deposit required).

- **Enterprise Plan:**

  - ○ **Cost Structure:** Premium Plan cost + $5,000 for NinjasCode Development Services.

  - ○ **Payment Options:** Full upfront or installment (same installment conditions apply; backend access and complete code handover upon full payment).

  - ○ **Upfront Requirement:** 50% deposit required for NinjasCode services.

  - ○ **Additional:** Server deployment occurs at the beginning of the installment plan.
